## Your Aircraft - High Capability for Lower Cost

You'll travel in one of our Bell Jet Ranger helicopters: the leading aircraft in the personal helicopter charter industry. Its spacious cabin offers luxurious seating for up to four passengers: one in the front of the aircraft alongside the pilot with three passengers in the rear of the cabin. There's also a luggage bay sufficient for light baggage and cases.

Despite its prestigious connotations, the cost of chartering your own helicopter may be less than you think. Fees are based on flight hours, so the faster the aircraft, the more cost-efficient your journey. With this in mind, the impressive performance of the Bell Jet Ranger means that you enjoy a Personal Charter Service that's attractive not only in terms of speed, comfort and efficiency but also price.

To give you an idea of times involved, with a cruising speed of around 120 miles per hour you can fly from our airport near Cheltenham to Central London in 60 minutes. The maximum range of the aircraft at cruise speed is approximately 430 miles, giving an endurance time of 3 hours 20 minutes.
